

**BABY POWDER:** We have had huge success with this fragrance over the past two years. I always get the "wow" factor with it.... "This really does smell like baby powder" ....

**BASIL AND HERB:** Basil and Herb is a beautiful, very green and fresh scent "straight from the garden". Very 'true to life.'

**CUCUMBER MELON:** A great seller! It doesn't matter what time of the year, you can burn this fragrance. A perfect blend of cucumber and melon

**HOLIDAY APPLE SPICE:** Really fall type blend of apples cloves and other spices. A wonderful blend for the season!

**HONEYSUCKLE JASMINE:** This has more honeysuckle fragrance than jasmine in my opinion. Not a heady floral, but just right. One of my top sellers, and strong!

**LAVENDER:** This lavender is without a doubt the best I have ever found! It is definately for all of those lavender lovers out there.

**LEMONGRASS VANILLA:** The fresh, crisp scent of lemongrass is delightfully blended with the sweetness of vanilla to create a magnificent mix. This is a must try!

**LILAC BUSH:** Probably as perfect a scent to a true lilac as you can find. Not over the top like some. You'll feel like you're sitting near a lilac bush. Nice and strong, as well, but not heady. Gorgeous!

**VANILLA CUPCAKE:** OK (Here is the One!!!) A Customer stated: I can't get enough of this. It smells so good and it fills the whole downstairs level of my home. It will knock your socks off. By far our Best Seller of all time!!! Don't let the name fool you, this is not a sickening sweet cupcake icing smell. You just have to try it to see what we mean. It is GOOD!

**WELCOME HOME:** Vanilla frosting, cinnamon sticks, toasted graham crackers and a bit of apple. This filled my Living room in 30-40 minutes and within an Hour scent traveled to my Upstairs. My Husband commented no candle scent has traveled that far.
